WEBLESS MIGRATORY BIRDS

2000 STATE OF MONTANA HUNTING REGULATIONS

Mourning Doves, Sandhill Cranes & Common Snipe

MONTANA WEBLESS MIGRATORY BIRD LICENSING REQUIREMENTS (Mourning Doves, Sandhill Cranes and Common Snipe)		
Resident/Nonresident	**Age**	**License Required**
Resident	12 to 15	Conservation Only
Resident	16	Conservation & MT Migratory Bird Stamp
Resident	16 to 61	Conservation & MT Migratory Bird Stamp
Resident	62+ or FWP Certified Disabled	Conservation Only
Nonresident	12 to 15	Conservation Only
Nonresident	16+	Conservation & MT Migratory Bird Stamp

Both resident and nonresident migratory bird hunters (16 – 61) years of age) must carry on their person a Montana Migratory Bird Stamp that is signed in ink across the face of the stamp. Webless migratory bird hunters do not need a federal waterfowl stamp.

Migratory Bird Harvest Information Program (MFHIP) – All migratory bird hunters in Montana, as well as in all other states, are required to take part in a National Harvest Survey Program, termed the Migratory Bird Harvest Information Program (MBHIP). To comply with MBHIP, you must fill out a survey form with your name, address and date of birth before you can purchase your Montana Migratory Bird Stamp. In addition, you will be asked to respond to several questions about your hunting experience during last year's season. Thank you for your cooperation.

GENERAL REGULATIONS

The migratory bird regulations listed herein are subject to federal approval in late July 2000. These regulations and final quotas are adopted under the authority granted to the commission in Section 87-1-301, MCA and are valid March 1, 2000 through February 29, 2001. These regulations were adopted by the Montana Fish, Wildlife & Parks Commission on July 21, 2000. Patrick J. Graham, Secretary.

Means of Taking – Migratory birds may be taken only with long, recurve or compound bow and arrow or shotgun not larger than ten gauge incapable of holding more than three shells fired from the shoulder. May not be taken from or by means, or aid of, or use of a sinkbox, aircraft, motor vehicle, or motor-driven conveyance of any kind, except a motorboat when the motor has been shut off and the boat has stopped. Use of any electronic or phonographic waterfowl-calling device is illegal, as are live decoys.

Possession of Live Birds – Wounded birds reduced to possession shall be immediately killed and included in the daily bag limit.

Restrictions – No person shall take migratory birds by driving, rallying or chasing birds with any motorized conveyance or any sailboat to put them in range of the hunter; by the aid of baiting (placing feed such as corn, wheat, salt or other feed to constitute a lure or enticement). Hunters should be aware that a baited area is considered to be baited 10 days after the removal of the bait, and it is not necessary for the hunter to know an area is baited to be in violation.

Shipment – No person shall ship migratory game birds unless the package is marked on the outside with: (a) the name and address of the person sending the birds, (b) the name and address of the person to whom the birds are being sent, and (c) the number of birds, by species, contained in the package.

Shooting Hours – Authorized shooting hours begin one-half hour before sunrise to sunset each day of the hunting season.

Tagging – No person shall give, put or leave any migratory birds at any place or in custody of another person unless the birds are tagged by the hunter with the following information: 1) the hunter's signature; 2) the hunter's address; 3) the total number of birds involved, by species; 4) the dates such birds were killed. Tagging is required if the birds are being transported by another person for the hunter, or if the birds have been left for cleaning, storage (including temporary storage), shipment or taxidermy services.

Wanton Waste – No person shall kill or cripple any migratory game bird under these regulations without making a reasonable effort to retrieve the bird, and retain it in his actual custody, at the place where taken or between that place and either (a) his automobile or principal means of land transportation; or (b) his personal abode or temporary or transient place of lodging; or (c) migratory game bird preservation facility; or (d) a post office; or (e) a common carrier facility.

Leave Wing Attached – One fully feathered wing or head must remain attached to each bird (except doves) at all times while being transported from the place where taken to the personal abode of the possessor or processing facility.

Property and Trespass Laws – Montana Law requires that hunters **must** have permission of the landowner, lessee or their agent before hunting on private property. Under the Montana Stream Access Law, the public may use rivers and streams for certain recreational purposes up to the ordinary high-water marks. Recreationists are urged to refer to the complete rules, which can be obtained, from any Fish, Wildlife & Parks office.

Non-Toxic Shot – Is not required for webless migratory birds. However, it is unlawful for anyone to use or possess a shotgun shell or ammunition loaded with or containing other than federally approved non-toxic shot, while hunting, taking or attempting to take ducks, geese, swans or coots.
